

Redistricting News

The Town Clerk has just received word that the State of New Hampshire is in the process of redistricting the House of Representatives, New Hampshire State Senate, the Executive Council, the County Commissioner Districts, and the two Congressional Districts. New districts will be based off the 2010 United States Census data.

Public Hearings have been scheduled so the Chair and Vice Chair of the Special Committee on Redistricting can get a clear understanding of how citizens feel they should be represented. They are interested to know if certain communities or individuals have specific concerns or thoughts about districts and how they should be formed. Verbal and written testimony will be accepted.

America Votes urges all interested parties to attend the public hearing.
